Re: January 2008 IBT Meeting

We are continuing to develop the website. Guy Eberl and Bota Rasanda are working on this for us. We hope not only to have news for the youth and teens but also keep members aware of our projects.

We have been very fortunate to have daily briefings on Abby Wilson (our common cents gal from Perry). She is undergoing chemo at this time and looks at the possibility of having a lung transplant if the chemo does not stop the growth of the tumors in her lungs.

The committee continues to request that emphasis in pictures, articles, etc. include the addressing of the younger owners of Airstreams to entice those families to join the WBCCI (We have seen more pictures in the Blue Beret on the inside cover.). The use of the activities where young families are mentioned or shown in pictures will continue to help build the membership and interest in the club of these owners.

The rally dates are still of concern to this committee as the later start date would enable more families to attend. The committee continues to request the consideration of the fees charged to give a credit to those who stay off grounds.

We are planning many activities for the youth/teens at the International Rally. We would ask that you continue to support all the activities including the Teen Queen Program. We will again be supporting a child in the area as well as collecting stuffed animals, tabs, etc.

We will be encouraging the young people to assist in committees at the International and request that Chairmen contact us if they need help.
